

Consent Form for Group Sessions

Use this register where individual consent is needed for identifiable photography, filming or audio recording during a workshop, project session or other group activity. Each person should read the information below and then complete one line of the register to confirm whether they give permission for Manchester Histories to use their image, likeness or voice in print, online, social media, press/media and reporting.

Each individual signing this form must have been presented with a summary version of the Project Information Form (in visual or aural form), given a chance to ask any questions and offered a copy of the Manchester Histories Project Information Document for Community Projects produced for this specific project.

If you are unable to read or complete this written form, please speak to the project lead. They can read the form aloud to you, answer any questions, and support you to record your consent verbally or by video instead of signing the form.

Connecting people through histories and heritage

I give permission for Manchester Histories to use photos, video or audio recordings of me for promotion, education and producing reports which could appear in print, online, on social media and in reports to funders and partners. I understand that these materials may be edited and shared and that I will not be paid for their use, but that if I change my mind about giving my permission, I can tell Manchester Histories at any time.

Project Name:

Please complete one row below. If the participant is under 16, a parent or guardian must sign.

First Name	Surname	Date	Signature	Parent / guardian signature if under 16	Consent (Yes / No)
