

Consent Form for Individuals

Use this form where individual consent is needed for identifiable photography, filming or audio recording of one person - for example for interviews, podcasts, case studies, portraits, or other one-to-one recording activity. Each individual signing this form must have been presented with a summary version of the Project Information Form (in visual or aural form), given a chance to ask any questions and offered a copy of the Manchester Histories Project Information Document for Community Projects produced for the specific project.

If you are unable to read or complete this written form, please speak to the project lead. They can read the form aloud to you, answer any questions, and support you to record your consent verbally or by video instead of signing the form.

First Name:	
Surname:	
Project / activity name:	
Date:	

I give permission for Manchester Histories to use photos, video or audio recordings of me for promotion, education and producing reports which could appear in print, online, on social media and in reports to funders and partners. I understand that these materials may be edited and shared and that I will not be paid for their use, but that if I change my mind about giving my permission, I can tell Manchester Histories at any time.

I have read and understood the above:	Yes / No (circle)
Signature:	
If under 16, parent / guardian signature:
